Field Repair. Forever green has given an estimate to over seed the field 2 weeks before the season ends and after season ends to fill in the spots. Should we use them or is this something that can be done by us? Pat feels we have enough volunteers and equipment to do it ourselves. Would need to be done early October. Brett and Pat to work on supply list .Field #4 is the worst and will be used heavily on October 2 and 9. \$1000.00 went to vote and approved to use for the fields.

Up to \$500.00 was approved to use to rent the all weather field at Sportsplex for practices for teams due to the condition of the fields and weather.

Winter indoor training. Last fall participants paid \$55.00 because NRASL paid half. This year it will be approx. \$75.00 . The NRASL voted and agreed to pick up the \$1500 procoach fee of \$1500. otherwise it would be \$95.00 a person. Travel Coaches will be on the field interacting with teams the entire time for a controlled environment. All teams are invited whether their team coach is there or not.

Coaching/teaching "shape" of players role on the field. * *Incorporate commitment by including this fee*

for winter training up front in the future? Player will pay thru Force and the Coach will receive email with who has paid. .Will need to be paid by the first practice in November.

If 10+ teams register there is \$100 off. U10 and under is \$500.00.U11 and up is \$650.00.

U6 and U7 League Wide training is looking very good. Academy is doing a good job. He will be bringing a Pro-Coach to LWT at no cost to us. He is no longer with Cleveland United. Goal Proposal by George Panagiotou

Concept: How to do we get more fields available throughout the city?

Most cities have goals located throughout. We do not. Has a map of where the goals would go. Additional field managers would be needed to line etc. They would be visible to avoid vandalism and easy patrol by Police Dept.

If we have additional fields we would be able to use those when Root rd. is not able to handle or fields are ruined during season. This would be seen as a donation to the city in return for us to use for practice, tournaments etc. The estimate would be approx \$15,000. School Board would need to approve prior to us spending the \$. Plan to have as many Board Members avail at School Board meeting.

Voted on and approved to fund this proposal.

Meeting adjourned at 10:45pm
